1. This RFP seeks proposals to provide a fireworks display (“the Display”) for the Town on June 30, 2018, or the Rain Date of July 3, 2018. The required Display is to be no less than 25 minutes in duration and have a one mile line of visibility. The Contractor must perform clean-up of fireworks materials from the barge and the loading/off-loading site.

2. Proposals should include a main display and a finale with shells of between 2 1/2 – 8 inch diameter, and a creative variety of other fireworks. To discourage repetitive use of simple effects and low-cost devices, the award will not be made solely on quantity of shells proposed.

3. All fireworks should be Class 1.3 Display Fireworks. All fireworks packages shall be clearly labeled as to size, type, quantity and country of origin.

4. The Contractor will be solely responsible for compliance with the applicable codes and standards, and shall comply with NFPA 1123 (2014 Edition) Code for the Outdoor Display of Fireworks and NFPA 1126 (2011 Edition) Standard for Use of Pyrotechnics before a Proximate Audience. Additional safety requirements may apply which are not addressed in the NFPA 1126, if deemed necessary for fire and injury prevention.

5. The Contractor will be solely responsible for delivery of all fireworks, mortar tubes and mortar racks to discharge all shells in the Display. The Contractor shall meet with the Town’s contracted barge company from which the Display is to be staged to coordinate their respective services.

6. After final inspection by the Office and Community Involvement Coordinator to determine that all activities by the Contractor have been completed and all conditions of the contract have been satisfied, the Office and Community Involvement Coordinator shall provide a written statement to the Town Administrator that the contract has been completed under the conditions and terms thereof. The entire balance found to be due to the Contractor will be paid to the Contractor within thirty (30) days after the date of said written statement.

7. The Contractor must provide to the Town's Office and Community Involvement Coordinator one week before the shoot, a printed, detailed, itemized, inventory shipping list of all shells shipped for the Display.

8. Prior to the loading of the shells, the Contractor must provide an on-site inventory check of shells with assigned Town staff at a mutually agreed upon time but no later than 12:00 noon on the day of the show.

9. The Contractor must provide to the Town's Office and Community Involvement Coordinator as early as possible, but no less than three (3) weeks prior to the shoot, a copy of all applicable permits (fire, police, local and state approval).

10. The Contractor must provide a detailed, concise action plan for delivery, inventory, pyrotechnics handling from off-loading to set-up, communication with staff, describe set-up, display, clean-up of area and disposal of defective, damaged or unsafe shells. Include safety procedures and a detailed back-up plan to assure the show will be fired if a malfunction occurs.

11. The Contractor must provide an experienced and certified pyro technician who meets all state and federal laws relative to the handling, transportation and firing of pyrotechnics.

12. The Contractor must communicate and work with the Town's barge contractor to determine the load out site for the transfer of the fireworks and equipment onto the barges.

B. Contract Terms

1. The Contractor shall provide the fireworks proposed in the Proposal as submitted.

2. The Town will pay a deposit to the Contractor fifty percent (50%) of the contract consideration to the Contractor for the event no more than 10 days after the contract is signed by both parties. Upon successful completion of the Display, the Town shall pay the remaining balance within 10 days of Contractor invoice. The Town reserves the right to withhold payment of a portion of the contract amount should the Contractor not perform the services as required by the signed contract.

3. Postponement and Cancellation

Postponement of the Display may occur because of rain or inclement weather or for other reasons as determined by the Town. If a postponement should become necessary, the Mayor is the ONLY individual who may make such a decision, except that in the case of the Mayor's absence

or inability to act, the Council Vice-President shall act in his stead. In the event a postponement is necessary, the Town shall notify the Contractor by telephonic means and email as soon as possible. In the event of postponement of the June 30, 2018 event, the Contractor will be notified prior to 11:00 A.M. on June 29, 2018, that the Display is postponed until July 3, 2018 and the Town shall not be subject to any additional costs.
