

Critical Area Designations

- Intensely Developed Areas (IDA)
- Limited Development Areas (LDA)
- Resource Conservation Areas (RCA)
- Federal
- Exempt
- Shoreline
- Wetlands

IMPORTANT INFORMATION ABOUT THIS MAP:
 This final approved map represents the official Regulatory Critical Area map that is also represented in the State-wide Base map for the Town of Chesapeake Beach. The shoreline and wetland boundaries represented on this map may not be construed to represent an official wetland delineation or to change in any way any statutory provision under Title 16 of the Environment Article, any regulatory provision under Title 26, Subtitle 24 of the Code of Maryland Regulations, or any other provision related to a project-specific wetland delineation that may be necessary and appropriate. Furthermore, any mapped shoreline and landward boundary of tidal wetlands represented on this map may not be used to delineate the minimum 100-foot buffer or expanded buffer delineations.

Buffers and buffer delineation must be field verified as required by COMAR 27.01.09.01. The aerial photography is from 2008 Maryland State Highway Administration contract. All imagery for the project was captured as a nominal flying altitude of 4800 AGL, with a minimum 30% side-lap to achieve a 6" ortho-product. The imagery was processed to meet or exceed NMA standards for 1" = 100' map products. Supplemental data and imagery used to create the Critical Area Boundary were also produced at a scale of 1:1200 or 1" = 100'.
